

## Drug Inventory

Simplify your farm's drug management with precise tracking, automated expiration alerts, and seamless integration with DelPro™ FarmManager

### The challenge

- Do you want to track and manage drug inventory efficiently on your farm?
- Is it challenging to ensure you're using drugs before they expire?
- Can you quickly access treatment history for specific animals?
- Do you spend too much time documenting animal treatments for veterinary authorities?

SEE HOW IT WORKS

### The solution

- Drug Inventory automatically imports your drug registry from FarmManager, giving you a complete overview of your treatments.
- It helps you manage your drug inventory more efficiently, saving time and money while enhancing animal health.
- This application delivers a detailed logbook for all treatments, searchable by animal number and date range.
- Manage your drug inventory from anywhere with internet access. Whether you are in the barn, at home, or on the go, you can keep track of your medicines.

### The result

Go  
Faster

Drug Inventory facilitates drug management and treatment documentation, saving time and supporting veterinarian reports and compliance.

Get  
Closer

Reduce waste and manage costs effectively by closely monitoring your drug inventory.

Go  
Further

Stay informed and make data-driven decisions to optimise your herds' health management.
