

# Milking Performance

If you are using DeLaval parlours and rotaries, this application is a crucial farm management tool that supports your milking routines by providing you with a comprehensive analytical overview, enabling you to make data-driven improvements.

## The challenge

- Are you concerned about overmilking your cows?
- Is your milking parlour reaching maximum potential?
- Do you have concerns about your milking preparation routine?
- Would you like to set specific milking performance related goals?

SEE HOW IT WORKS

## The solution

- Focus on efficient milking performance by knowing the average milking time per group of cows.
- Access the whole picture of your milking performance at any time with graphical and highly user-friendly KPI's.
- Be able to customize your farm performance goals and compare your results with goal trends.
- Have an overview analysis that can complement milk performance reports from DelPro™ FarmManager.

## The result

Go  
Faster

Helps you to identify improvement opportunities to enable a more efficient milking routine.

Get  
Closer

By having access to your milking performance KPI's, you can improve your workforce's competencies.

Go  
Further

Having clear indicators of performance trends will enable you to stay on track with your milking performance goals.
