

## Sync

Easily synchronize DelPro™ FarmManager cow event data for proAction® Dairy Trace through Sync. Save time and effort keeping your important data up-to-date.

### The challenge

- Do you struggle in keeping up and entering data for Dairy Trace?
- Do you get behind in updating Dairy Trace?
- Are you tired of double entry?

SEE HOW IT  
WORKS

### The solution

- All you have to do is record the cow events, and Sync is there to help you ensure the data is shared with Dairy Trace.
- Every country has its own data-sharing needs, and Sync helps you ensure that your reported events are ready to be synchronized.
- DeLaval Sync leads you in what you need to do for sending data to Dairy Trace
- DeLaval Sync pulls data from DelPro FarmManager when needed, and updates Dairy Trace for all of your animal movements, calvings, deaths, purchases and sales

### The result

Go  
Faster

Your DeLaval system can start faster without the need of any manual data entry.

Get  
Closer

By getting closer to Dairy Trace, you can have peace of mind that your important data is up-to-date.

Go  
Further

Having one place for all cow data enables you to make those essential decisions that'll take your performance further.

### The experience

"Sync is simple and easy to use. It removes double data entry and connects DelPro FarmManager to Dairy Trace."

- Jamie Mangin, Canada
