## Sand stabilizer DSS11

Honey combed structure fixate and keeps the sand in place

Fixed with 14 steel bolts

Less sand in the alleys means less wear on the manure cleaning equipment

I looked at more than 6000 cows the last 14 years so in total I have judged more than 60,000 joints. Barns using sand and the sand stabilizer shows the best results.”

- Dr Harald Reubold, DLG Germany

### Measurements

Thickness	110mm
Length	1530mm
Width	1130mm
Compression	10mm

### Most suitable for:

- ☒ Dairy cows
