

DeLaval

Cow Mattress M45R

DeLaval cow mattress M45R has been designed with a 3.5 mm rubber top cover for optimal grip and long-lasting comfort.

The cover is used in combination with a 40mm wrapped foam to provide a 100% sealed mattress solution that offers excellent traction and durability. DeLaval M45R is cow-friendly as it doesn't contain any nail or plug attachments which prevents dirt from getting under the cover, making it easier to maintain a more hygienic environment.

DeLaval

Cow Mattress M45R

Smooth edge

Seamless mattress for up to 70 meter long cubicles
