

# DeLaval

## Premium Rubber mat RM37F

Good  
hoof grip

Easy to  
clean and  
drain

Animal  
safe lying  
solution

Adaptable  
to all  
cubicles

**DeLaval premium rubber mat RM37F is a mat with the comfort of a mattress. DeLaval mat RM37F provides 37 mm of comfort for your cows with excellent compression. It consists of a rubber mat and a 25mm thick foam insert.**

The special surface of the rubber mat ensures good hoof grip thanks to the triangle texture of the upper part of the mat; but also easier cleaning and drainage thanks to the smoother surface at the back. RM37F premium mats interlock with each other thanks to the puzzle edges, creating a seamless, healthier and easier to clean lying surface. Spacers at the beginning and end of the row create a straight finish, and the addition of intermediate spacers between the mats means that the RM37F installation can be adapted to most free hanging cubicle configurations.

# DeLaval Rubber mat RM37F

We have two models of mats in the barn but the RM37F is the preferred choice for my cows. The mat is very comfortable for them, it has good grip and they find it easy to lie down and stand up in the cubicle. The mat is easy to clean as well .”

Measurements	
Thickness	37mm
Length	180mm
Width	115 - 125mm
Compression	18,6 mm

#### Most suitable for:

- ☒ Dairy cows
- ☒ Heifers
- ☐ Calves

#### Recommended for:

- ☐ Tied up
- ☒ Loose housing
- ☐ Calving pens

#### Works well with DryMaxx™

With a top layer of your usual bedding or a bedding conditioner like DryMaxx™ you can keep the surface of the mat even cleaner and drier.

#### Comfort rating

The foil wrapped foam provides durability and firmness

Easy to install in existing barns

Do it yourself installation makes installation easy compared to a roll or a mattress
