

DeLaval accessories catalogue

What you need to make your daily work more productive and efficient!

We are happy to present to you our new accessories catalogue. Inside you will find solutions that make your daily work easier and helps you to run your business smoother and more profitable. These are innovative solutions ranging from intelligent surveillance systems with the DeLaval Farm monitoring camera FMC-IP1 to DeLaval eco paper EP1000 made out of 100% recyclable cellulose. Solutions that help you do more with less, no matter the size or approach of your farm.

Our accessories range covers hygiene products, animal husbandry and barn and working environment solutions. Take time to discover what you are looking for and, hopefully, it will give you some inspiration for your farm!

Best regards,

Tony Drake

Vice President Milk Quality & Animal Health

Barbara Strunk

Portfolio Director Farm Supplies

DeLaval is a company of the Tetra Laval Group.

DeLaval is part of the FfDO initiative

The Food for Development Office initiates and supports feeding programmes such as school milk programmes and integrated dairy development projects in developing countries.

The aim of these projects is to achieve sustainable social and economic dairy development by promoting local milk production and value chain improvements.

Art.no. 97105050

Price £5.70

Research proves that effective teat preparation immediately before milking can have a positive impact on reducing mastitis incidence in your herd. Milking well prepared teats can also speed-up the milking process and pre-massage helps ensure complete milk let-down by stimulating oxytocin release.

Hygiene test equipment

DeLaval california mastitis test CMT

is an easy and economical way to help detect infected quarters early.

One of the most common forms of mastitis is sub-clinical. It is hard to detect as no visible changes appear in the udder, but an increase in the level of somatic cells shows its presence. DeLaval california mastitis test CMT is an easy, economical way to detect infected quarters early and thereby limit damage.

Art. no. 92065113

Price £12.90

DeLaval plastic curry comb with adjustable supporting loop

Art. no. 85555403 Price £1.81

Water products

High yielding cows can drink up to 150 l/day. Calves and heifers drink between 0.5 l/day till 15 l/day. Therefore a proper capacity of water bowl valves and the right drinking space needs to be checked carefully.

The DeLaval C range water bowls are coming in 3 different sizes to support all ages of cows, heifers and calves on a farm.

1

1. DeLaval water bowl C5 incl tube valve

The cast iron bowl is robust and has an acid resistant enamel surface. The C5 is especially designed for calves and can be ordered with a tube "valve" to fulfill the needs of your calves. The bowl is easy to clean and can be connected to our DWH (Drinking water heater) systems.

Art. no. 90576485 Price £37.20

2

2. DeLaval water bowl C10 incl tube valve

DeLaval water bowl C10 covers all the needs your young stock or heifers have. The tube "valve" delivers 10l/min at 4 bar. Due to the enamel cover the bowl is easy to clean.

Art. no. 92632980 Price £50.55

Tube valve for DeLaval water bowl C10 and C5

Art. no. 90639580 Price £18.45

3

3. DeLaval water bowl C20

The biggest of the cast iron water bowls is the DeLaval C20. The high capacity of the valve provides 20 l/min at 4 bar, the best amount of water supply to high yielding cows.

Art. no. 98932783 Price £63.60

4

4. DeLaval horse bowl P10

The DeLaval horse bowl P10 out of durable plastic is really flexible and secures horses for any injuries.

Art. no. 92632880

Complete valve horse bowl 10P

Art. no. 92632810 Price £19.05

3

4

5

1. DeLaval water bowl CF7

The DeLaval CF7 is a float water bowl and designed for horses, sheep, goats and young stock. New designed the CF7 comes lighter than before and with a plug to support the cleaning process. The float valve has a capacity of 5 l/min.

Art. no. 97282490 Price £70.90

2. DeLaval water trough S28 and DeLaval water trough S28 double

The stainless steel S28 and S28 double water troughs can be used in loose housing barns. Due to the stainless steel and the design this water trough is highly hygienic. The closed system and the high capacity of the valve underline the hygienic aspect and help to clean on their self. The trough can be used ideal in small parts of the barn or can be installed on the barn stalling. The S28 double is especially designed for maternity boxes or cross alleys with limited space.

DeLaval water trough S28

Art. no. 90576480 Price £335.50

3. DeLaval water bowl S22

The stainless steel water bowl S22 comes with a high capacity valve, 22 l/min. Built-in spill protection keeps the cubicle dry and clean.

Art. no. 90602883 Price £66.25

Tube valve for water bowl S22

Art no. 90602821 Price £16.60

4. DeLaval electric heated bowl 300

The electric heated bowl 300 is designed for cold climates and keeps the water in winter ice free. The gentle water flow is especially designed for cows and horses.

Art. no. 97291680 Price £309.50

5. DeLaval PT11

The PT11 is one of the biggest water bowls in the DeLaval water assortment and can be used for single cows or for a group of 10. It is out of food approved and robust polyethylene.

The PT11 can be mounted on the wall or on the floor and has an excellent valve capacity of 83l/min at 4 bars. Due to its round design and a plug on the side the PT11 is an easy to clean and a low maintenance product.

The PT11 can be installed with the submersible heater which allows installing the trough even in colder conditions.

Art. no. 89712440 Price £239.30

DeLaval float valve F9

The F9 float valve has a capacity of 9 litres/min and comes with a stainless steel case to protect the valve. The drinking height can be easily adjusted to the needs of the animals.

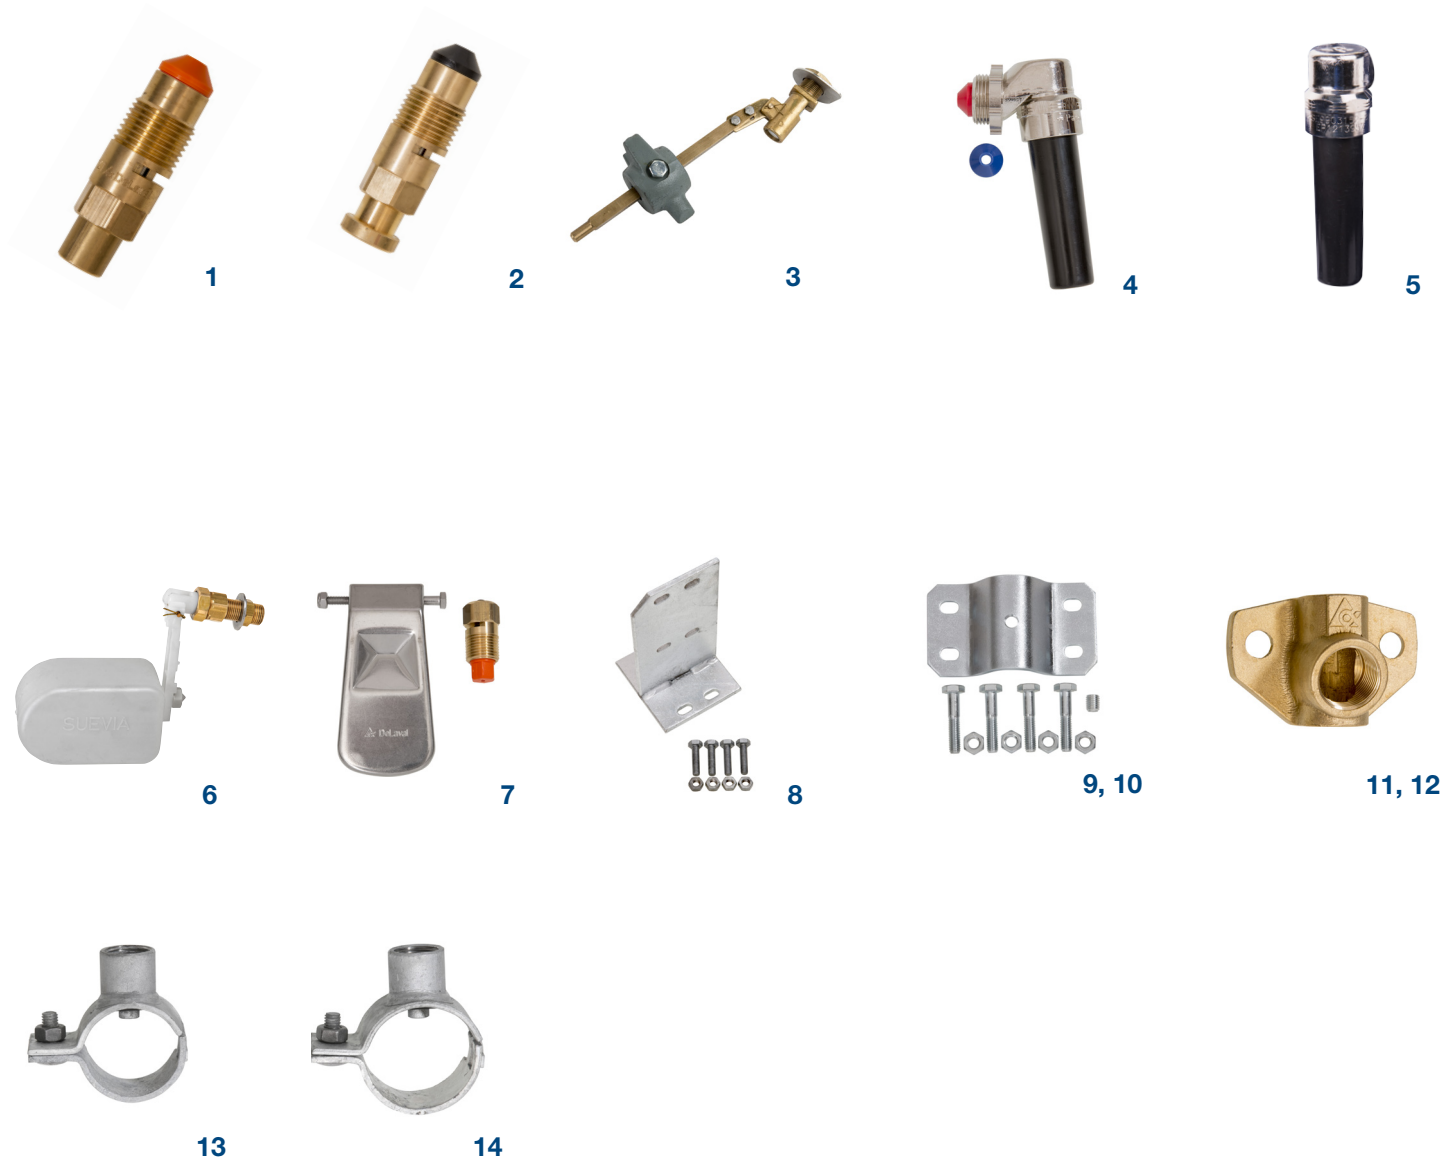

Art. no. 98908280 Price £21.70

DeLaval float valve

An ideal water valve for your pasture troughs. The valve provides 30l/min at 4 bar and is coming in stainless steel case to protect the valve. The hanging device supports the easy installation.

Clippers

DeLaval electric clipper C2

Robust clipper suitable for cattle and horse. It has a powerful permanent magnet motor of 200W and works extremely silent 65 dB. Ergonomic design, low weight of 1240gr and comfortable 10% clipping angle makes this clipper really easy to use.

Art. no. 86581201 Price £313.50

DeLaval electric clipper S2

Robust sheep shearing machine. It has a powerful permanent magnet motor of 200W. Ergonomic design and low weight of 1240gr enable the user to shear comfortably for long periods.

Art. no. 86581301 Price £322.10

DeLaval electric clipper R2

The battery clipper R2 enables clipping freedom as no cord limits you. It is easy to move around the animal and it is easy to carry indoors and outdoors.

The ergonomic design, light weight and low noise level enables long and comfortable clipping hours.

The 2,6 Ah Li-Ion battery enables as much as up to 120 minutes running time on one charging.

Art. no. 87439601 Price £348.00

DeLaval clipper CB35

CB35 is a small and handy clipper suitable for trimming details on cattle and horse or for pets in general. CB35 is robust and available in two versions – with battery or with mains cable. It is quiet and has a powerful 35W permanent magnet motor. Detachable blade system which makes it easy and quick to change blades. Interchangeable power source – battery or mains adapter.

CB35 battery version is delivered with two high performance Li-Ionic batteries enabling clipping without longer breaks. The battery can be used up to 90 minutes clipping per charge and only 45 minutes battery charging time. Charger unit with separate charging bay for 2nd battery pack and charge indicator.

DeLaval clipper CB35 battery

Art. no. 94247100 Price £274.50

DeLaval clipper CB35 mains

Art. no. 94247124 Price £165.20

DeLaval clipper HCP65

This light weight 930 gram clipper for horses is a professional clipper with an ergonomic, soft rubber grip for comfort. The clipper's patented head reduces wear on the blades and increases working life, while its unique 13° cutting angle simplifies the task of clipping difficult parts like the head or legs.

Art. no. 97104080 Price £255.00

DeLaval clipper CC320

A 320 W clipper motor with overload protection gives longer service life, with quicker and more efficient cutting. This well-balanced clipper absorbs vibrations with counter weights.

Art. no. 97106580 Price £330.50

DeLaval sheep shearing plant SP300 1-speed

The DeLaval sheep shearing plant SP300 is a professional lightweight and quite running 1-speed shearing plant. The unique electronic safety switch stops the motor in case of a hand piece lockup. It is run by a powerful motor and has a sturdy glass fibre reinforced housing. Installing the machine is a very easy task, thanks to its handgrip which is compatible to most of the shearing gallows already existing out in the market. The SP300 can simply be attached with a cord, as the machine can swing since it's exclusively meant to be used with flexible drives. SP300 is delivered with an ergonomic hand piece.

Art. no. 96806293 Price £1394.00

DeLaval clipper oil

In order to maintain the optimum performance of the clipper it is vital to oil the blades frequently. Insufficient lubrication leads to overheating and dull blades and in the long run may cause damage to the machine.

Clipper oil dispenser can 100 ml

Art. no. 97106540 Price £6.80

Clipper oil 500 ml refill bottle

Art. no. 92525830 Price £18.55

Clean, well-groomed animals enjoy greater well-being and comfort and helps keeping your herd in good condition. Remember to always use a sharp blade with your DeLaval clipper.

Surveillance system

DeLaval farm monitoring camera FMC-IP1

With our IP camera, you can keep an eye on what matters most from any smartphone or computer: first-time calvers and newborns, automatic feeders and milking machines, or even that accessible diesel tank. FMC-IP1 has been specially designed to withstand the dirt and humidity of barns, as well as the weather extremes of the great outdoors. Giving you professional quality monitoring, in full HD, it's plug-and-play easy to install – so you can start with one or two cameras, and then add according to need.

Submersible pumps and disinfection mats

DeLaval submersible pumps

Robust submersible pumps for draining clean and dirty water, sewage and liquid manure.

The stainless steel pump is particularly useful in areas of high acidity such as pressed water from silage or urine drainage.

The durable cast-iron pumps have their motor placed in an oil-bath ensuring that the pump can work in tough environments without overheating.

The cast iron pumps can also deal with thicker liquid and are often used in slurry pits and similarly difficult conditions. All the pumps are mobile, easy to install and easy to operate.

Robust work wear and hygienic milking wear Quality clothes for everyone, everywhere

Introducing the DeLaval work wear

Dairy farming puts heavy demands on clothing. You are exposed to the elements, performing tasks that range from gentle to hard physical work, in a wide range of body positions. The new DeLaval clothing range meets these demands comfortably.

Protection and comfort without compromise

Clothing that is designed for the way you work, means material that is both tough and comfortable. DeLaval clothing gives you the flexibility to move freely, the protection to stay clean and dry, and the durability to last for years.

DeLaval outerwear is reinforced with CORDURA® fabric where you need it most: knees, elbows and pockets. This is complemented by high-durability elastic that lets you bend, reach and stretch freely.

For extra safety at dawn and dusk, reflective panels provide clear visibility front and back. And because getting dirty goes with the job, the material we use in our outerwear is both water and stain resistant. Simply wipe it off and carry on.

Looking great never hurts

Sure, the barn is no fashion show, but when you and your team look and feel professional, it's easier to engage with what you do. And while the latest fashion might not mean much to your cows, it matters when choosing work wear you will use for years to come.

Robust work wear

Functionality, quality and design form the basis of DeLaval robust work wear. The right-sized pockets are conveniently positioned on high-quality fabrics that endure extreme wear, while offering maximum comfort in an eye-catching design. DeLaval robust work wear is made specifically for farmers, based on our many years of experience in the milk production industry. When you wear DeLaval robust work wear, you will notice the difference!

The quality doesn't end there. When we talk about attention to details, it's the little things, such as an elastic waistband, a stretch collar, inserts at shoulder and cuffs makes the difference. Ergonomic lines for greater freedom of movement.

Robust work wear

DeLaval classic overall

This overall can be worn by itself or on top of your other clothes. It keeps you warm and clean as there are no openings for dirt and cold to get in. This long-lasting overall features knee pockets for extra comfort and CORDURA® reinforcements where most needed for added durability. An elastic zone in the back provides excellent freedom of movement and there are plenty of pockets for anything you need.

- Water and stain resistant
- Knee pockets made of CORDURA®
- Double yardstick pocket on the right
- Hammer loop on the left
- Easy access to side pockets of clothes under the overall
- Elastic zone in the back
- 3M reflectors front and back
- Adjustable double sleeves for extra protection
- Napoleon pocket under zipper cover

Material: 65% Cotton / 35% Polyester
Colour: Blue and black
Models: Unisex

DeLaval easy dress overall

This overall is perfect for wearing on its own or on top of other clothes for extra protection and better hygiene. It features double zippers from feet to neck. This makes putting it on and taking it off as easy as unzipping and stepping out – without even having to remove your shoes. An elastic zone in the back provides excellent freedom of movement and double sleeves keep you dry and comfortable.

- Two zippers from bottom to neck in the front
- Adjustable double sleeves for extra protection
- Water and stain resistant
- Double yardstick pocket on the right
- Hammer loop on the left
- Elastic zone in the back
- Easy access to side pockets of clothes under the overall
- 3M reflectors front and back
- Napoleon pocket under zipper cover

DeLaval working jacket

Stay warm and dry inside and out. DeLaval working jacket combines durability with comfort. Ergonomically designed sleeves and stretch zones in the back and shoulders provide freedom of movement. It's made from durable and breathable material that is both stain and water resistant. For extra support at the main pressure points, elbows are reinforced with CORDURA® fabric.

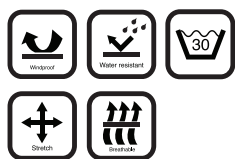

- Water and stain resistant
- Flexibility zones in shoulders, arms and back
- Front zip with beard and chin guard
- CORDURA® reinforced elbows
- Integrated breast, side and internal pockets
- 3M reflectors front and back

DeLaval insulated softshell jacket

Block out the cold without cramping your style. This softshell jacket is made from soft and comfortable material that is also windproof and water resistant. To keep you warm inside, the sleeves and body are padded with insulation. The ergonomic design provides maximum freedom of movement without unnecessary bulk. Side pockets are protected with waterproof zippers. And for what's really precious, internal pockets can fit a small tablet and a smartphone.

- Water resistant and windproof
- Breathable stretch fabric
- Insulation padding
- 3M reflectors front and back
- Fleece inner collar
- Detachable hood with visor
- Protected side and internal pockets
- Inner cuffs with thumbhole
- Back extension

DeLaval working trousers

Long-lasting trousers that let you get down to business. DeLaval working trousers are designed to maintain comfort and freedom of movement no matter what position you are in. They have kneepad pockets allowing you to add extra cushioning when needed. And being reinforced with CORDURA® fabric at stress points, these trousers are built to last. Our women's trousers are designed for a more feminine fit and provide comfort without compromising on features or durability.

- Separate models for men and women
- Water and stain resistant
- CORDURA® reinforced kneepad pockets
- Contoured design for freedom of movement
- Elasticated waistband
- Side, back and thigh pockets
- 3M reflectors front and back

Hygienic milking wear

Milking cows is the backbone of dairy farming and DeLaval knows that farmers have to meet stringent hygiene requirements to produce quality milk. Because milking is so important, we designed hygienic and comfortable clothing specially for it. DeLaval offers dual fabric wear with water repellent Teflon outer lining for overalls, trousers and shirts. Hygienic nitrile gloves and aprons are also available.
