Not only is it proven that our range of swinging Cow Brushes provide great animal health and productivity benefits – but it is also true that our brushes are the most popular with cows (a fact proven in independent studies*).

With its patented dual-pivoting motion providing a full hide coverage that other brushes can't match, it's tough and durable construction, and its smart automatic safety features, it's easy to see why there's over 100,000 Swinging Cow Brushes on farms worldwide.

To scratch your performance itch, either talk to your trusted DeLaval representative or for more information, visit us at www.delaval.com
